

CAPABILITY STATEMENT

Founded in 2002, MAC Group is a privately held, multidisciplinary, certified Woman-Owned Small Business headquartered in New Jersey. Our team of PMP certified Project Managers and Network Infrastructure Specialists focus on safety, sustainability, and innovation. For over 20 years, MAC Group served as a trusted partner for network infrastructure solutions. Our team of seasoned professionals manage and streamline each project, from kick off to close out, maintaining our rigorous commitment to integrity, quality, innovation, and collaboration. MAC Group also offers a range of high-quality advisory and IT support services to both public and private sector entities.

CORE COMPETENCIES

-  **Network Infrastructure Solutions**
Designing, installing, and expanding network infrastructure.
-  **Equipment Installation**
MAC Group certified and highly-experienced technicians install telecommunication systems, network equipment, audio, video and CCTV, wireless access points, kiosks, and more.
-  **Project, Client & Account Management**
Collaboratively leading PMP initiatives from start to finish to optimize quality, safety, throughput, and cost management.
-  **Instructor-Led Training**
Designing and delivering custom training for collaborative learning.
-  **Airspace Security Solutions**
Protect your airspace with drone detection equipment and surveillance.
-  **UVC Disinfection Solutions**
In partnership with Finsen Tech, we disinfect air, surfaces, and objects using UVC technology. Germicidal doses of continuous wave of UVC energy rids surfaces and the surrounding air of harmful pathogens.
